A Message from Kamil:

"Babson has taught me that learning from some of the most brilliant and accomplished faculty in the world and alongside remarkably industrious peers rapidly improves one's ability to understand new topics. Applying the concepts learned in the classroom to real-life contexts in internships with Kronospan ensures that what one learns turns into second nature."

A Message from Lizaveta:

"During my previous semester at Babson, I have discovered many new opportunities for my future career and personal development. One of the most appealing to me is a Global Business Management concentration. I strongly believe that the world does not just center around money, but I believe in the power of relationships between people. For that reason, in our modern and diverse world, it is significantly important to be a culturally aware and educated business person as well as a caring and well-rounded human being."

Besides having access to a top-notch education, we are part of an international environment, formed by both other students and professors, which enriches the educational experience. In addition, the Kronospan internships allowed me to work and discover the local culture in other countries around Europe."
